

## **Chorro Creek Ecological Reserve Floodplain Restoration Project**

March 27, 2019

The Morro Bay National Estuary Program is seeking Contractors to submit bids for the project below.

### **Description of Work**

The Project consists of grading over 1,000 linear feet of side channel and floodplain, grading over 1,000 linear feet of floodplain adjacent to an existing side channel, improving an at-grade crossing, improving side channel connections to the main stem and applying erosion control and seeding to all disturbed areas. The property is owned by the California Department of Fish and Wildlife and therefore prevailing wages are required for this project.

### **Mandatory Pre-Bid Conference**

A pre-bid conference will be held on **April 15, 2019** at **1pm** at the Project Site (Gilardi Road intersection with Highway 1, San Luis Obispo). Attendance is mandatory for submitting bid.

### **Bid Documents**

Bid documents can be found online at [www.mbnep.org/ccerbid](http://www.mbnep.org/ccerbid).

### **Bid Due Date**

Bids are to be delivered via email on or before **5pm PDT, Tuesday, April 30<sup>th</sup>, 2019**. The bid should be emailed to Carolyn Geraghty, [cgeraghty@mbnep.org](mailto:cgeraghty@mbnep.org), and identified as "Chorro Creek Ecological Reserve Floodplain Restoration Project". Bids will be privately opened. Requests for information are due by **April 22, 2019, 5pm PDT**.

### **Anticipated Project Timeline**

The anticipated start date for the project is July 1, 2019 with substantial completion October 11, 2019. Project requires work within and near stream systems, which require this working window.

### **Contractor Bid Contact**
